

## To Clear History in Chrome:

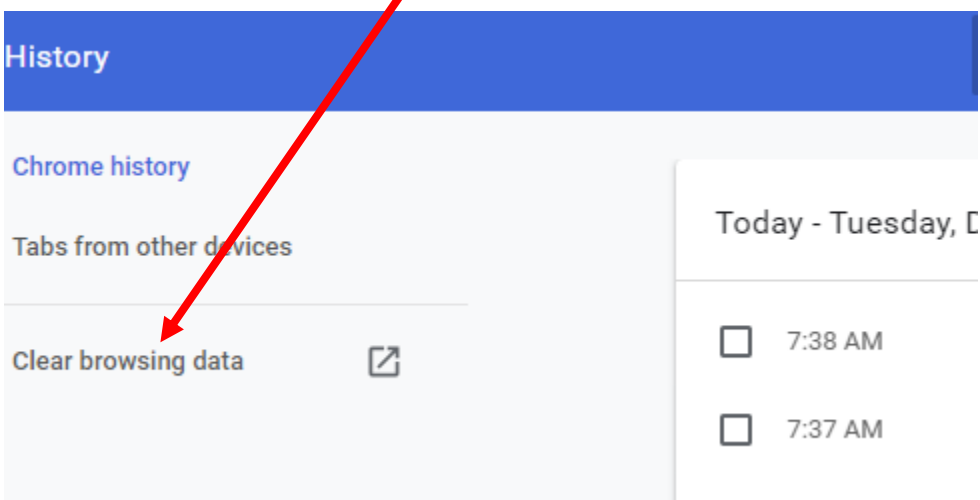

- Open Chrome
- Click Settings (The three dots in upper right hand corner)

- Click History
- Click History Again

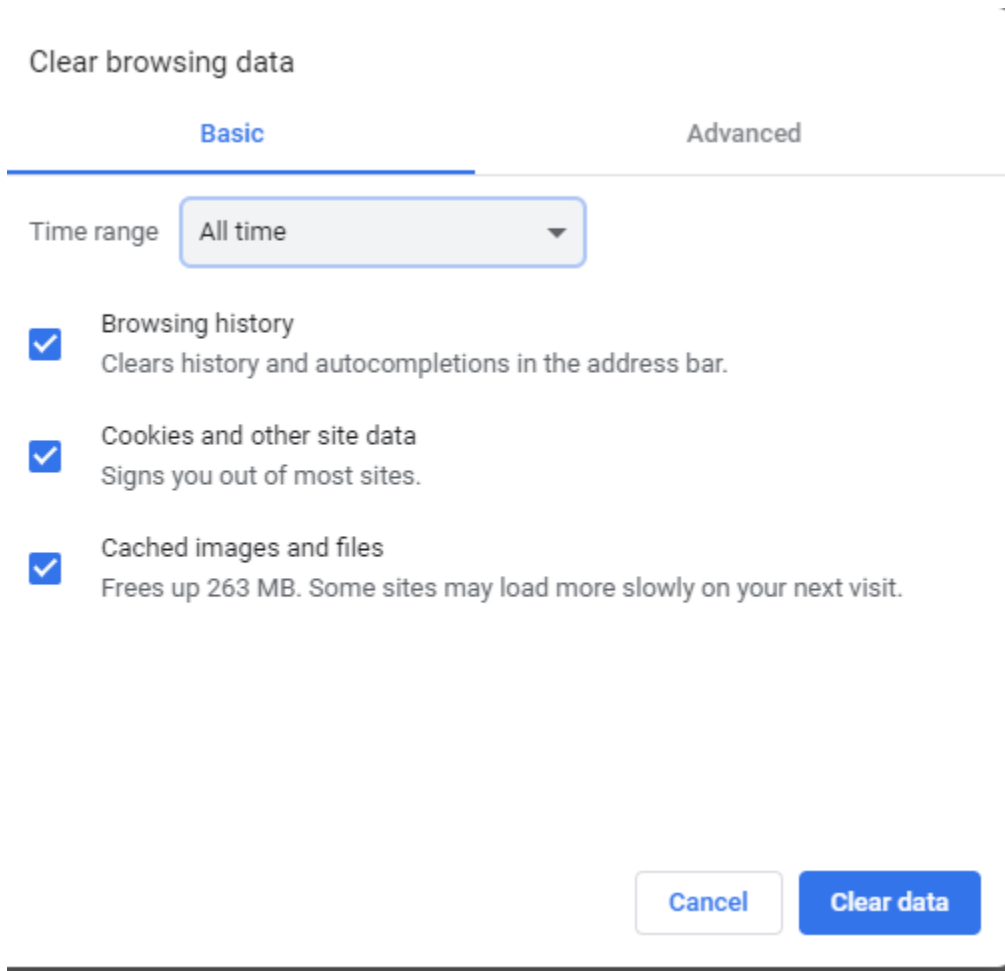

- Click Clear browsing data

- Make sure Browsing history, Cookies and other site data and Cached images files are checked. You can choose anything between last 24 hours and All Time.

- Click clear data

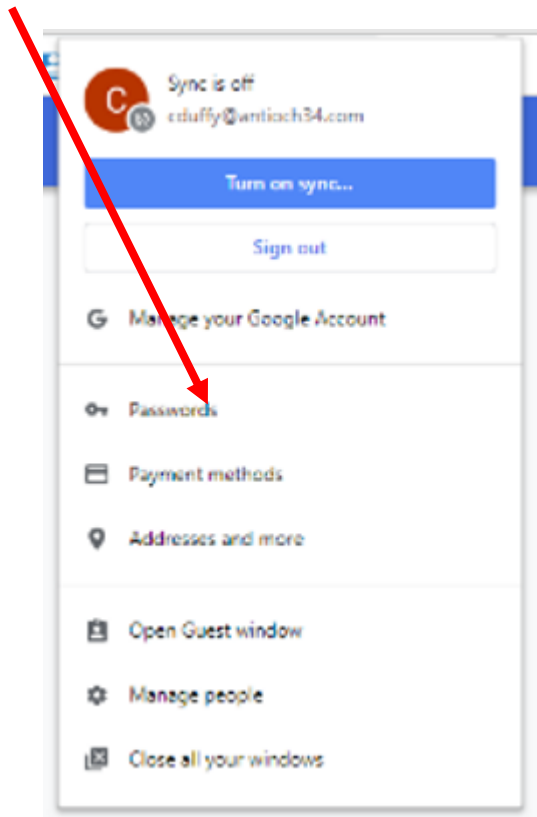

- Close Chrome when it is finished
- Open Chrome again and try password

**If it is still trying to use an old password, follow these steps.**

- Click the account circle

- Click Passwords

- Find anything that contains PowerSchool login information, then click the three dots after it. Then, click remove.

- Do this to all PowerSchool entries.
- Exit out of Chrome
- Open Chrome again and login with you known password

If these steps do not work, please try a different browser, or put in a trouble ticket. If you need a password reset, please put in a trouble ticket.

\*\*When setting up a new PowerSchool password, please make sure it **is completely different** than your login/email password. \*\*
