DATA TRENDS: AREAS OF STRENGTH

One Data Point, Fall 2022

- ECRA: 73% of **1st** graders met their proficiency benchmark in **Math** on the Fall MAP
 - ECRA: 50% of **5th** graders met their proficiency benchmark in **Reading** on the Fall MAP
 - ECRA Growth Projections: 96% of **7th** graders are expected to make their personal growth targets on the Spring **Reading** MAP assessment
 - IAR **Writing**: Recovery rate on written response items was higher than the State
- 

DATA TRENDS: AREAS OF STRENGTH

Multiple data points, Overtime

When looking at

- 3 Data Points: 18-19 (pre-pandemic), 20-21 and 21-22
- Meet or Exceeded Expectations (proficiency) on IAR
- Antioch CCSD 34 grade level compared to the same grade level at the state

The following grade levels show a greater number of students scoring at proficiency than the State for all 3 years:

- **3rd Math | 7th Math and ELA**

The following grade levels have shown a greater number of students outperforming the State in proficiency for at least 2 years:

- **4th Math, 5th Math & ELA, 6th Math & ELA, 8th Math**
- 

DATA TRENDS - AREAS OF OPPORTUNITY

GRADE LEVEL

- **3rd ELA:** Proficiency on IAR is historically below the state average (all 3 years)
- **4th ELA:** Proficiency on IAR is historically below the state average (for 2 years)
- **8th ELA:** Proficiency on IAR is historically below the state average (for 2 years)

CONTENT AREA

- **3rd-8th Writing:** Research Writing Simulation Tasks on IAR
 - **6th-8th Reading:** Science and Technical Tasks on IAR
 - **3rd to 4th Math:** Proficiency level on Major Content Area consistently dips on IAR
 - **5th to 6th Math:** Proficiency level on Supporting Content consistently dips on IAR
- 

DATA TRENDS - AREAS OF OPPORTUNITY

SUB-GROUP

The State average significantly outperforms the following Antioch CCSD 34 subgroups and content areas:

- Black Students: ELA
- Asian Students: ELA and Math
- Students of Two or More Races: ELA

Focusing on the trends identified in our analysis, the Data Leadership Team will meet with teachers and teams in order to review and discuss the data trends and determine explicit action steps designed to improve student performance in the identified areas.

NEXT STEPS

GRADE LEVEL

- 3rd, 4th and 8th Grade Reading
 - Using ECRA data analysis reports, students not projected to meet personal growth on the Spring MAP will be provided targeted instruction and intervention
- 3rd Grade Reading
 - Conduct overall comprehensive analysis
- 6th Grade Reading
 - Continue IAR data analysis, evaluation of instructional practices and provision of professional development

NEXT STEPS

CONTENT AREA

- IAR Writing: Research Writing Simulation Tasks (3-6)
- IAR Reading: Science and Technical Tasks (6-8)
- IAR Math, Major and Supporting Content Areas (3 & 5)

SUB GROUPS

- Further explore EL programming/service delivery models and identify opportunities to improve support/services for students and families of students receiving EL services
- Identify professional development opportunities for classroom teachers who work with students receiving EL services

JUNE DATA PRESENTATION

The Data Leadership Team will provide a follow-up presentation to the Board of Education in June, focusing on the Spring 2023 MAP data and an update on the outcomes of the action plans and steps taken to address identified trends will be presented.
